

Redcar & Cleveland Family Hubs

Case Study

Why did you choose Rocket Healthcare & what were the main benefits?

Choosing Rocket Healthcare was an easy decision due to them being a reputable business who had built up numerous successful partnerships with some of the largest health authorities and NHS trusts in the UK.

Due to their reputation, we knew that working with them would enable us to have a seamless integration with certainty of optimised outcomes.

How do you find the implementation process?

From the very first project implementation meeting, the Rocket Healthcare team proved to be well prepared, detailed, informative and professional.

Our leadership team felt fully supported through to the go live date and the subsequent months thereafter.

The Rocket team were slick and professional.

What are your results to date?

Extremely positive feedback from families who have expressed their appreciation of the app. Our families have found instant communication with health

professionals through health chat and push notifications to be hugely rewarding whilst also finding the information prescribing and unique interactive features to be engaging.

How would you describe the app to others?

First and foremost, the app has proved to be easily accessible which is essential to us.

It offers diverse features which are easy to navigate and interact with which are aimed at assisting parents and young family members.

The app has greatly enhanced our digital presence within our community.

Would you recommend Rocket Healthcare to others?

We would certainly recommend Rocket Healthcare.

Their reputation is well deserved, it is easy to see why they are a partner of choice for many NHS trusts and local authorities.
